

MERIDIAN 201 REMOTE CONTROL PREAMPLIFIER

Meridian has combined in the 200 Series products the highest quality audio performance standards with the convenience of a versatile control system. The 201 is a unique product which satisfies the most comprehensive and sophisticated audio requirements yet remains simple and elegant to use.

- Each input level can be preset from the front panel to provide matched volume output levels.
- Tape inputs provide full monitoring facilities and recordings from one input can be made whilst listening to a different input.
- The volume control circuit is the highest audio quality to be found on a current product—a smooth 64 position electronic attenuator which can be remotely adjusted even to a preset maximum level.
- An optional second system module may be added to duplicate the facilities of the 201 in another room. This unique feature allows various programmes to be heard in separate rooms from the same preamplifier.

MERIDIAN 201 REMOTE CONTROL PREAMPLIFIER

FACILITIES

The 201 is the centrepiece of a sophisticated hi fi system. It can control the signal inputs from a LP record deck, a CD player, a video or TV, 2 tape recorders and radio. It can be used either as part of an existing system where features such as remote volume control of another amplifier or TV are useful or with other Meridian 200 Series matched products such as 207 Compact Disc Player, 204 Tuner Timer and 205 Power Amplifier. All functions are accessible from the front panel keyboard or via the optional 209 master control. Volume level and other functions are displayed on the front panel. The phono input is switchable to suit moving coil or high output cartridges.

TECHNICAL SPECIFICATION

Input sensitivity	100 μ V/1.5mV phono, 150mV other
Distortion	less than 0.01%
Output	0dBm, +12dBm max
Headphones	2V rms, in system 1 or 2 outputs
Inputs	Phono MC, MM, Tape 1, Tape 2, Video, Radio, CD
Controls	Mute, Copy, Mode (set up switch), System 1, System 2, standby, volume up, volume down.
Dimensions	159mm \times 310mm \times 90mm (W \times L \times H)
