## PRESS RELEASE For Immediate Attention

### Multi-Room Audio Just Got 3 x Better Meridian Introduces Distributor 3

**Allows Simple High Quality Audio Distribution to More  
Zones**

**Meridian Audio** has announced the introduction of the easy to install Distributor 3, a seamless way of distributing audio from a central location to three additional “zones”. A zone can be built from a pair of DSP loudspeakers up to a full Meridian entertainment system with local sources. In essence, the Distributor 3 effortlessly integrates Meridian DSP loudspeakers with your distributed home audio system, providing Meridian sound quality in every room.

Each zone can be fed a discrete audio signal as well as control over an RS232 interface. Distributor 3 is the ‘glue’ enabling additional Meridian audio zones around the home and is intended to be used in tandem with a home control system.

Meridian’s new Distributor 3 plays all of your sources through any Meridian DSP loudspeaker allowing seamless integration with your entire home audio system and provides integration with your home lighting and entertainment control system.

## Key Points for Editors

- Easy to install – Meridian sound quality throughout the house
- Easy additional zones with Meridian loudspeakers - can be added to all DSP loudspeakers (including in-walls)
- Allows central sources to be distributed between three zones of Meridian loudspeakers – additional Distributor 3 units can be used to add even more zones
- 3 discrete zones including volume and source selection
- Universal source connectivity for analogue, digital, and SpeakerLink sources
- Discrete control of each zone via an RS232 Interface
- Powered over Meridian SpeakerLink
- Simple lights indicate source and power
- Rack mount metal case – durable and increases audio performance
- Manufactured in Meridian's factory in Huntingdon, UK

## Meridian Distributor 3: UK Price (SRP) £900.00 incl. VAT

## **ABOUT MERIDIAN AUDIO**

Meridian is based near Cambridge, UK, and was founded in 1977 by Bob Stuart and Allen Boothroyd. With over 35 years' history of innovation and development of uncompromised consumer home entertainment systems offering exceptional performance, this award-winning company is widely recognised as a world leader in high-quality audio and video reproduction. Meridian developed the first audiophile CD player, the world's first consumer digital surround controller, and the MLP lossless packing system included in Blu-ray Disc. The company's optical disc players, DSP-based loudspeakers, video projectors, and scalars are unique in the industry, maintaining a super-quality digital signal throughout the path from the studio to the home, using advanced digital signal processing to deliver both a sweet, natural sound and smooth, crystal-sharp images with true cinematic realism. In late 2008, Meridian acquired leading networked media server developer Sooloos, and today the Meridian Digital Media System offers a unique combination of superb digital audio quality with the world's most innovative, flexible and intuitive touch screen.
