

Ensemble

The Ensemble combines the functions of Source and Store components in a single chassis and integrates fully with other Sooloos system components on the network.

It features four analogue stereo RCA-type outputs and an S/PDIF digital audio output for up to five discrete zones. Like all Meridian Sooloos components, the Ensemble connects to other devices in the system over standard TCP/IP Ethernet, using CAT5/5e/6 cables with RJ-45 connectors.

The Ensemble includes a removable hard disk tray for storage. With a one-terabyte hard disk, it has a 2,400-album capacity. Your music is stored as lossless FLAC audio for use by the Sooloos system and as MP3s for export to your iPod or other portable device. Ensemble can also access other storage on the network such as Twinstores.

A one-touch process in Control Mac/PC allows you to backup all the media stored on an Ensemble's drive to an external hard drive.

Turn any computer in the home into a CD ripper for the system with Control Mac/PC. No need to stand in front of the system waiting to load discs – load as you check email or surf the web!

Technical Specifications:

DIMENSIONS:

430 x 70 x 364mm / 17 x 2.75 x 14.6in (WHD)
Dimensions include non-removable feet

WEIGHT: 5.8kg (12.8lb)

AUDIO CONNECTIONS:

Analogue: 5 unbalanced stereo pairs, RCA type
Digital: 1 S/PDIF coaxial digital output, RCA type

NETWORK CONNECTIONS:

1 Ethernet (RJ-45) or Neutrik EtherCon

POWER CONNECTIONS:

12V DC input, external AC adapter 110-230V
Removable IEC 3-prong power cable

REMOVABLE DRIVE TRAY:

Form Factor: 3.5 inch SATA
Drive Type: Serial ATA (SATA) – 7200 RPM
Connectors: SATA Data and SATA Power

REAR VIEW:

Ensemble

All the features of an Ensemble in a standard 2U rack mountable chassis. Includes an internal fan and a front-mounted power switch.

Technical Specifications:

DIMENSIONS:

424 x 89 x 390mm / 16.7 x 3.5 x 15.4in (WHD)

WEIGHT: 5.8kg (12.8lb)

POWER CONNECTIONS:

115V/230V switchable,
Removable IEC 3-prong power cable

COOLING: Internal fan
