Meridian to host 'Hitchhikers' event for its most dedicated aficionados

Meridian 810 projector

Meridian is to present a second 'Hitchhikers' event – HH2 – at its Huntingdon HQ on July 10th. Meridian 'Hitchhikers' is a global network comprising ardent Meridian followers and enthusiasts who mainly correspond through their own dedicated forum-style website. More than 50 Meridian Hitchhikers – some travelling from as far as Australia – will make their way to Cambridgeshire to attend a series of demonstrations on Meridian Sooloos, DSP7200, 808.2, DSP8000 and the 810 projector (pictured). They'll also get a special tutorial on how to get the best from your Meridian system, a special Q&A session with Meridian chairman Bob Stuart and an optional factory tour.
